PROFILE

Passionate Frontend Developer skilled in building responsive and user-friendly web applications. Experienced in creating clean, efficient, and scalable interfaces using modern technologies. Focused on delivering seamless user experiences while continuously expanding my skills toward full-stack development.

EDUCATION

Karimganj Sobhania Kamil Madrasha ***Kishoreganj, Dhaka***

Fazil (Bachelor Equivalent) in Islamic Studies 2026–Present

SKILLS

Technical: HTML5, CSS3, JavaScript (ES6+), React, Nodejs, Tailwind CSS, daisy UI

Tools: Git, GitHub, Firebase

PROJECTS

BPL Dream 11 | Live link GitHub Repository

- Developed a coin-based player selection system where users can claim coins and purchase players according to their individual price and available balance.
- Implemented balance validation logic to prevent purchases when the coin balance is insufficient.
- Built a responsive interface using **React and Tailwind CSS** with dynamic state updates to provide real-time user feedback.

Kalni E-commerce Shop | Live link GitHub Repository

- Developed a fully responsive e-commerce website using HTML, CSS, and JavaScript with dynamic product rendering.
- Implemented shopping cart functionality with real-time price calculation and quantity management.
- Enhanced user experience with interactive UI elements, DOM manipulation, and event-driven functionality.
